EXPERIENCE

FREELANCER | FRONT-END DEVELOPER

Arg-BsAs | March 2023 – Present

As a freelance Front-End Developer, I've proficiently utilized HTML, CSS, and JavaScript to craft visually appealing and responsive landing pages and e-commerce websites. Leveraging the power of Sass for efficient styling, I've employed frameworks like BooStrap to enhance development speed and user interactivity. My work reflects a keen eye for detail, ensuring cross-browser compatibility and optimal performance. Additionally, I've successfully implemented animations and transitions to create engaging user experiences. Always committed to staying abreast of industry trends, I continually refine my skills through ongoing professional development.

SKILLS

PROGRAMMING LANGUAGES

JavaScript, HTML, CSS, SaSS
